

Partnership Brochure 2024

**DATA
SCIENCE
DAYS**

ABOUT US

Data Science Days is a foundation set up by student association D.S.A. Pattern and Jheronimus Academy of Data Science (JADS) that aims to bridge the gap between academia and practitioners by organizing three large career-oriented events.

DATA SCIENCE DAYS

EVENTS

Through three yearly events, Data Science Days offers students perspectives into their future by inviting experienced and promising data-driven companies to share their knowledge and expertise regarding the possibilities within the Data Science field. Additionally, the events serve as a fertile ground for data enthusiasts to connect and discuss potential career opportunities. We offer the following events:

Allows students in any stage of their bachelor or master to explore the opportunities within the Data Scientist field through presentations and business cases.

Offers students a place to talk to companies that have a vacancy for thesis projects, internships and/or (student) jobs.

Inspires students to become more entrepreneurial and potentially found their own company.

7 MARCH 2024

Inspire students to start their own venture

The Start-Up Night aims to inspire students about the journey of entrepreneurs by sharing their story, struggles, mission and vision.

**DATA SCIENCE
START-UP NIGHT**

2 OCTOBER 2024

Network with data science peers and connect with talent

The DEX is our biggest event. It is a **day-filling program** with a company market, presentations, keynotes, business cases, and more!

**DATA SCIENCE
EXPERIENCE DAY**

Aim

Let visitors explore what is possible within the large field of Data Science and let them be inspired by stories of real data scientists

Participation Benefits

- Network with a **large group** of different people in the data science field
- **Share expertise** with interested parties
- Find potential new future employees

OUR EVENTS

10 JUNE 2024

Recruit talented interns and employees on the short-term

**DATA SCIENCE
TALENT FAIR**

The Talent Fair is centered around a company market that allows companies and students to find a potential match for an internship or job.

Aim

Connect students with companies for a (part-time) job or (bachelor) thesis spot

Participation Benefits

- Connect with **talented students**
- Recruit talented interns and employees on the **short-term**

Past Success

Past events have been a **major success** for companies, leading to numerous signings of our talented students!

DATA SCIENCE EXPERIENCE DAY

Network with data science peers and connect with talent

2 OCTOBER 2024

- You can bring one roll-up banner (max 1 meter wide)
- Goodies and flyers are welcomed
- After the market, there is a network drink!

PRESENTATIONS

Describe 'a day in the life of a data scientist' and give an impression of the culture, atmosphere and work environment within your company!

- 1-hour session, 30-minute timeslots
- 1 presentation is 20 min, with 10 min for questions

DATA SCIENCE EXPERIENCE DAY

Network with data science peers and connect with talent

2 OCTOBER 2024

 200-300 attendees

 JADS Campus

 Full day

BUSINESS CASE

Work with participants on a problem relevant to your company and give them an insight into your company's work environment.

- Duration of 60, 90 or 120 minutes
- Max. 15 students
- Typically more approachable and interactive than a training session

TRAINING SESSION

Share knowledge and teach participants about a skill useful for a Data Science prospect and showcase the capabilities of your trainers and traineeship programs.

- Duration of 1 hour or 2 hours with a break
- Taught by an expert in a specific area

BUSINESS DINNER

Have extensive one-on-one contact with participants during a 3-course dinner at a restaurant at walking distance from JADS.

- Each company gets a seat for two representatives per table
- Participants will rotate over tables for networking
- Scheduled after the regular program on the same day
